MEMORANDUM FOR: [REDACTED], NSA/V24
 THROUGH : [REDACTED] NSA/LO/NPIC
 SUBJECT : VIP Facilities in Moscow Area
 REFERENCES : NSA/V24/R-100-74
 (NPIC Project 300051)

1. This memorandum is in response to the requirement referenced above which requests annotated prints of two areas near Moscow, USSR. One area, Zarechye, is believed to be an area of dachas for Soviet VIPs and the other area, Yasnevo, is believed to be some type of scientific institute.

2. The Zarechye area is shown on attachment 1. Heavy growth of coniferous trees covered most fence lines. No communications antennas were identified; however an open cable trench was observed in the northern part of the facility.

3. The Yasnevo area is shown on attachment 2. No scientific institute could be identified in this area. The three buildings appear to be cattle barns and the fenced areas are probably cattle pens.

4. Further inquiries should be directed to [REDACTED] of the Communications Branch, Missiles and Space Division, IEG, IDS code 143,
